

MESSAGE

The University of North Bengal set out its journey in 1962 with the objective of meeting the rising needs of the knowledge study. More than sixty years in the life of an Institution is a laudable achievement – particularly for a University which is dedicated to the enterprise of making of great teachers in the society. I am aware of the milestones that the University of North Bengal has achieved since its birth.

We are on the verge of another academic session 2023–2024. Like every year we are in the process to welcome a fresh batch of excellent and enthusiastic students and at the same time another batch with full of talent are going to put their steps into the real world of various professions after passing out from the University of North Bengal.

The Doctorate degree gives the students the power to fly with strong wings of knowledge, skills and values. To be successful in this arena you have to determine and define your goals clearly along with hard work. Your efforts with the able guidance of your teachers would definitely provide you with a blissful life.

I welcome all the students who aspire to uplift their career to make use of this excellent opportunity to enroll in this Ph.D. Course Work and wish you all the best for achieving great success and scaling new heights in the coming session.

Rathin Bandyopadhyay
Vice-Chancellor
